

Machine & Software Mastery Classes

Hi! And thanks for your interest in our spectacular sewing courses! We are definitely proud of the coursework, services and products we offer the sewing community and strive to provide stellar sewing experiences to everyone who places their confidence in our shop, our knowledgeable and kindly staff, our fabulous instructors and our state of the art classroom facilities. Whether your interest is in garment sewing or quilting, home décor or hand beading, purses or draperies, we are constantly reinventing ourselves, every trimester bringing you more and varied opportunities to express your creative sewing genius! If you've got a hankering to learn something and it has anything to do with needle and thread, let us know! We're more than happy to consider your requests for classes. In fact, all of our coursework is developed specifically with you in mind, and many of our students have provided the ideas that continue to push our sewing boundaries. So, go on! Push!

Machine Mastery classes are free to you when you purchase your sewing, embroidery and overlock machines and software through Sewing Arts Center. Software Mastery classes are free to you, too, when you purchase your Husqvarna Viking software through Sewing Arts Centers. However, as upgrades for the software products are introduced, only the newest versions are supported and taught. So, it's important when you purchase your software you enroll for class as soon as possible.

Pre-registration is required for all Machine and Software Mastery classes.

These classes are chalk full of information! In order to facilitate as much instruction as possible with the least amount of distraction, as a courtesy to our staff and to your fellow students we must ask that you arrive a few minutes early in order to start class on time. If you are going to be late, please call prior to the start of the class as it will be necessary to reschedule. Late arrivals will not be accommodated. We make no exceptions for this. Additionally, if you cannot attend a Machine and/or Software Mastery class for which you are pre-registered, please extend the courtesy of 24-hour notice in advance of the class so the staff may plan appropriately.

Note: If you do not show up or call ahead to identify your inability to attend a Machine or Software Mastery Class for which you are pre-registered, you are welcome to attend a Machine or Software Mastery Class at a later date at a fee of \$50 per session.

Class Prep: None! But, you must bring to class the sewing equipment you purchased in addition to the accessories that came with your equipment, including power cord, foot control, feet and bobbins. If you do not bring your sewing equipment with you, you are welcome to audit the class.

Lastly, if you purchased your machine equipment elsewhere, you're still welcome to join us. Please speak to one of the fine staff of Sewing Arts Center for a fee schedule.

See you soon! And, Thanks, truly, for choosing Sewing Arts Center.

All supplies are available at Sewing Arts Center. We are happy to assist you with your selections, and rely upon your support in order to bring to you the quality goods and exceptional sewing instruction you deserve. Thank you for exploring your creative sewing genius with us!
